### **DPW Garage Building Project**

- Clarification to Needed Adjustments to the Mezzanine Staircase

Original plans call for a direct, straight staircase to the Mezzanine platform. However, due the placement of specific, necessary duct work, the rise to the Mezzanine is now 13' not 12' so by the NY State Uniform Building Code the staircase must include a landing.

AES can research what the contingency costs will be. The Village must decide if they want the staircase to remain at 5' wide or go to a 4' wide staircase with the required landing incorporated.

Upon the motion of Trustee Bonner with a second by Trustee McKee and unanimously approved to acquire the cost differential on a 4' wide staircase incorporating the required landing.

### **Executive Session**

Upon the motion of Trustee McKee with a second by Trustee Bonner and unanimously carried to go into Executive Session on and Contractual Issue.

Upon the motion of Trustee Boyea with a second by Trustee Langdon and unanimously carried to come out of Executive Session.

Upon the motion of Trustee McKee with a second by Trustee Bonner and unanimously carried to go back into Regular session.

**Adjournment**

Motion to adjourn by Trustee Boyea at 2:37pm.

Respectfully submitted,

Rebahka L. Scaccia, Village Clerk
